## **ACRILEX INTRODUCES ACRIGLAS® MINERALS ACRYLIC SHEETS**

*A Greener Choice, the Minerals Series Turns Sustainable Practices into Attractive Design*

Acrilex, Inc., producers and distributors of high-end custom-colored acrylics, announces its Acriglas® *Minerals* series line of acrylic sheets. Composed of 20 % genuine Muscovite Mica flakes, a naturally occurring mineral, the *Minerals* series is a greener option ideal for use in cosmetic displays, store fixtures, and millwork.

The *Minerals* series was born from encapsulating Muscovite Mica flakes in an acrylic matrix, transforming the natural raw material into a machineable, formable, and weather-resistant product. Offered in an assortment of stunning colors, including Sandstone, Black Galaxy Mica, White Quartz, Indian Amber, Amethyst, Wisteria Mica, Garnet, and Natural Mica, the *Minerals* series line of acrylic sheets is lighter in weight and easier to fabricate than stone and glass, and saves time and money by reducing loss due to breakage.

Available in a variety of sizes and thicknesses ranging from 1/8" to 1/2", the *Minerals* series can be drilled, routed, laser cut, glued, formed, hot stamped, and silk-screened like any other acrylic sheet. All sheets can be custom cut or configured to meet the specifications of a wide variety of applications.

### **About Acrilex, Inc.**

Acrilex is a leading producer and distributor of custom-colored and stock plastic, fabricated plastic parts and other products that make people say WOW! In business to provide solutions to clients, Acrilex can design it, create it and get it to you faster than anyone else in the industry. Headquartered in Jersey City, NJ, Acrilex offers a complete line of acrylic products and capabilities. To learn more about Acrilex, call Dan Rustin, a.k.a. Dr. Dan, at 1-800-222-4680, or via email at [drustin@acrilex.com](mailto:drustin@acrilex.com). Additional information can be found on the Acrilex company website, [www.acrilex.com](http://www.acrilex.com)
